

Leszno 10th October 2024

Dear Partner

Due to the 25th anniversary of the Jan Amos Komieński State University of Applied Sciences in Leszno we would like to sincerely invite partner universities to join our celebration event, which will take place from 20th to 24th of May, 2025 in Leszno (Poland). Our guests can expect an interesting schedule with a lot of meetings, the University Patron's Day as well as our International Days and Fairs.

The event aims to strengthen and expand cooperation, to exchange know-how, good experiences and practices with international higher education institutions from EU member countries associated with the Erasmus+ program. All participants will be asked to prepare a short presentation or video about their universities. Thanks to the meetings and presentations during the fair we want to enable students to make more informed choices regarding their educational mobility. Furthermore the event will include a campus tour, workshops, cultural events during the University Patron's Day and several cultural excursions in and around Leszno.

Participation in the celebration event is free of charge. Our university will cover all costs directly related to the event program, including transportation to and from organized tourist activities. However, participants are asked to cover the cost of travel and accommodation in Leszno near the university campus. You are encouraged to use Erasmus+ funds (Erasmus+ Staff Mobility for Training grant funded by the sending institution) or other available resources.

Applications will be limited to 30 participants to facilitate the sharing of experiences and ensure more effective communication with academic and administrative staff.

If you are interested in participating in our anniversary celebrations, please send us a message by the end of November. Then we will send you an application form with requirements and practical information concerning the International Days and Fairs.

If you have any questions, please do not hesitate to contact us at dwz@ansleszno.pl

Best regards,

PROREKTOR
ds. nauki i współpracy z zagranicą
